Coaxial Cable stripper RG59 & RG6
We are pleased to offer our rotary, 3 blade, and coax cable stripper. The tool removes the cable jacket, braid and dielectric in one stripping operation. The tool is set-up to strip RG59 cable on one side of the reversible V-block and RG6 cable on the other side. The tool is supplied with an allen key for fine adjustment of the three individual cutting blades. RG-59/62/6/4C/5C Full user instructions are supplied with the tool.

The stripping dimensions between the blades are: 8 MM braid & 4MM dielectric

CCS312A £5.02 + VAT

F Connector installation and extraction Tool

Our F-Connector tool has two functions, a 7/16 in. hex socket and 3/8-32 threaded end. The hex socket aids the installation and removal of F-Connectors in hard to reach and crowded conditions.

CCS offer a pocket size coaxial cable stripper for RG6/59 (CT100) & RG7/11 (CT125 CT167) Lightweight, compact, cost-effective stripper. Strips coaxial jacket and inner conductor in one operation. No adjustment required.

Cable preparation made easy using this tool. The pre-set coaxial cable stripper needs no setting up to strip RG6/59 cable at one end and RG7/11 cable at the other. The compact stripper cuts the outer jacket and the braid/dielectric in one stripping operation each to a length of 0.25" (6.4 mm).

This is a great little tool and will easily fit in a pocket for quick use.
